KAIWALAGAL FUNERAL SERVICES

COFFINS & CASKETS

OUR PROMISE TO YOU

Our team are committed to providing culturally sensitive funeral arrangements for our community.

We offer a wide selection of coffins and caskets to suit a range of budgets and requirements.

Our Funeral Director will assist families through the selection process to ensure needs are met.

Note: Prices shown are for coffins available on Thursday Island.

Additional freight costs will apply for urgent air freight from mainland suppliers to Thursday Island, and for onward travel.

DIFFERENCE BETWEEN COFFINS, CASKETS AND DOUBLE ENDERS

Coffins have 6 sides, they are body-shaped and are narrower at the feet end than the top. The lid is completely removable. These are generally lower priced than caskets.

Double enders also have 6 sides, but the head and feet ends are equal sizes. The lid is removable. These are generally more expensive than coffins.

Caskets have 4 straight sides. The lid is hinged and can come in two parts as shown. Caskets are generally more expensive than coffins and double-enders.

Please Note:

- We are able to supply coffins and caskets additional to those displayed in this brochure and to suit a range of budgets and requirements, including Expression Coffins with your own design or pre-set design e.g. sporting teams.
- All our coffins are beautifully finished, meeting Australian standards. They come fitted with elegant satin lining and draperies.
- For all coffins and caskets, handles, fittings and accessories are included in your choice of either gold or silver colour.
